AGENDA

Introduction and Welcome – Dan/Karin

Website Review/Comments/Recommendations

Mr. Schaefer reviewed changes/improvements to the District website based on feedback from the last meeting along with reviewed updated data. No recommendations for improvement were made.

Review and Approval of Minutes of December 19, 2012 Meeting

Following a review of the minutes, a motion was made by Terry McCollough and seconded by Vinay Singhania for approval of the minutes as presented. Motion passed unanimously.

Review of Spring Projects

Mr. Schaefer indicated that as of February 28, 2013, \$5,581,310 or 13.8% of the bond funds have been obligated for purchase. He further explained that some of these items are not complete but are ordered or the projects are in progress. Mr. Schaefer indicated that roughly \$1.23M of purchases were made over the quarter with the majority of the purchases occurring in the area of instructional resources and technology. A complete list of purchases was reviewed in detail.

Committee members recommended adding a % complete column to determine if the project costs are in line with estimates.

Review of Project Timelines

Safety and Security – Mr. Burger indicated that with recent security issues throughout our nation, some of the security related items timing have moved up on the list for earlier completion. The areas of security cameras, keyless entrances and intercom systems will be bid this spring so the District can roll out the projects over the summer.

21st Century Classrooms – Mr. Burger and Dr. Sandra McCoy Jackson discussed the steps used to develop a standard 21st Century classroom along with discussing the grant program that will be used to ensure buy in from teachers for supplemental classroom technology. The last thing we want is to force technology on anyone, as experience has shown the technology would not be utilized. The grant program will require each teacher to submit a plan that will include a sustainability of the program.

Reallocation of Project Funds

None

Question/Discussion/Suggestions of Items

None

Transportation Facility	Expand bus parking and security fencing / Expand employee parking	20	Transportation		\$ 270,000			0%			270,000.00		Transportation sees an average of 7 - 8 "reported" on lot accidents due to limited parking space increasing out of pocket expenses for repair and creating cosmetic blemishes on BISD school property not helping with district's perception. Some buses are parked in unsecured areas providing opportunities of vandalism or terroristic acts due to limited parking. Due to limited parking employees have to park in the grass creating damage to school property as well as creating possible problems for personal vehicles. Personal vehicles have had to be pulled out of mud and employees have to walk through it. Also does not help with perception to the public.
